

CV Writing

**Not sure what include in your CV?
Want to improve your chances of getting the interview?**

CVs are yet the most common source for hiring managers' first impression of you and constitute a continuous point of reference in evaluations of candidates. Therefore, a processed and professional CV can quickly prove to be a good investment.

Applying our extensive experience in cybersecurity recruitment, we help develop a CV that highlights your relevant personal and professional qualities and makes you attractive to the right position(s).

Knowing the strong effect of a good layout, we furthermore support you with a complete, or upgraded, CV design to match the professional tone and create positive attention.

What do you get?

- Professional review of existing CV
- Complete CV design (text and layout)
- Identification of relevant skills, professionally and personally, towards general position types or a specific position
- 2 x follow-up sessions to ensure satisfaction

Price

5.995 - 9.995 DKK ex. VAT
Price depends on the starting point.
