

# Cybersecurity on the HR agenda

## Seminar for HR and Talent Acquisition

**How does the current cybersecurity landscape affect HR?  
What can you do to support your organization to greater success with cyber hirings?**

In this seminar designed for HR/TA, you will be updated on the latest cyber threats targeted HR and presented with security best practices to navigate them.

Furthermore, you will get strategies to strengthen your employer branding towards cyber talents. Sharing from our experience as cyber talent brokers, and our activities in cyber communities, we focus on how you can support your company in cyber hirings and how to attract and retain cybersecurity profiles.

### Walk away with

- Knowledge of cyber threats targeted HR
- HR Cybersecurity “best practices”
- Strategies for attractive cybersecurity job descriptions
- Knowledge of role definitions, acronyms, and relevant certifications in cybersecurity
- Initiatives to attract and retain key talents
